

## Partner hospitals

We work through an affiliated group of the largest and most advanced hospitals in the country as well as one 'Base of Clinic'. This arrangement enables us to offer clients reliable, rapid and cost efficient patient data, within all major therapeutic areas.

- Beijing University Institute of Clinical Pharmacology, Beijing
- Beijing Hospital, Beijing
- Beijing Cancer Hospital, Beijing
- South Hospital, Guangzhou
- Guangdong Provincial Stomatological Hospital, Guangzhou
- The second affiliated hospital Guangzhou medical College, Guangzhou
- Sun Yat-Sen University Cancer Hospital, Guangzhou
- Sun Yat-Sen University Ophthalmic Center, Guangzhou
- The third affiliated hospital of Sun Yat-Sen University, Guangzhou
- Guangdong Provincial Peoples Hospital, Guangzhou

## Partner hospital profiles

Below follows a presentation of four of ARI's key partner hospitals. The Agreements signed with these hospitals cover areas such as the set up of Joint Venture SMOs for clinical trials, GCP training of Investigators and CRAs, and hospital implementation of Electronic Data Management Systems.

---
